FARRELL MAY TALK TO-DAY

Bresnahan Will Sign No Contract Until Trouble With Cardinals Is Fixed.

When President Farrell of the Highlanders arrives here from Chicago to-day he may have something to say about the acquisition of Frank Leroy Chance. Mr. Farrell hasn't had time to make much headway in arriving at terms with Chance, who is at his orange grove, near Los Angeles, but it was learned yesterday that several wires had passed between the New York magnate and agents in California. It is believed that after the holidays Chance will come here for a talk with the owner of the Highlanders regarding plans for the next season. I have notified President Lynch that Chance has received his unconditional re-lesse from the Cincinnati club and I have also wired Ban Johnson that Chance now belongs to Mr. Farrell. I do not believe that Chance has been quoted correctly in Los Angeles. He may have said in fun that he wanted \$20,000 a year to manage the Highlanders, but he never made such a remark seriously. Why, Chance's salary as manager of the Cubs was \$7,500 a year, but he received an extra bonus of \$2,500 each season simply as a reward for his successful leadership. Chance had 10 per cent, of the Chicago tub's stock, which he sold recently for \$40,000. It must be remembered that Chance also played ball, fine ball, for many years while he was drawing this y, but with the Highlanders he will manage from the bench and coach-

Highlanders' Owner Says There Will Be No Slipup Over Question of Terms.

Citicago, Dec. 13 -- Frank Leroy Chance will leave his orange ranch in California and go to New York soon after the first of the year to discuss terms for managing the Highlanders.
